

Patio Decks

Deck plans require the following information:

1. Footing pier diameter
2. Footing pier depth
3. Spacing between piers
4. Beam sizes and dimension
5. Rafter sizes and dimension
6. Deck material and size
7. Flashing behind the ledger board
8. Anchor bolts, lags and ledger board size
9. "L" flashing above ledger board and under deck material
10. Teco joists hangers
11. Guard railing 36 " high, with vertical ballasters @ 4" maximum spacing between
12. Steps – 9 ½ " minimum step tread, 8 ¼" maximum step riser and risers equally spaced (example if the total rise is 30 " from ground to top of deck then each step would have a rise of 7 ½")
